this in any way that you like, as long as you credit us as the originator. I have tried several variations of the above links, and all of them. As suggested, am using WinMerge to compare files. I used the following path: \Embarcadero\RADStudio_XE5\Source\Package\STC\EPL10\FPC\StdCtrls. The "myst4br" contains the following As suggested, I downloaded the StdCtrls.pas file. It seems to be missing the redcbar.pas file. C:\Software\Embarcadero\RADStudio_XE5\

Source\Package\STC\EPL10\FPC\StdCtrls\redcbar.pas Does anyone have any suggestions?

A: I found the solution for this problem. The core issue was trying to view the FPC source files using WinMerge. In this case it was not necessary. What was needed was the Embarcadero RDB viewer.

After installing the Embarcadero RDB Viewer I was able to review the source code from a similar location.

Q: Convert string containing comma into separate strings I

have a string that I want to convert to a list of separate strings containing the characters in the original string.

```
var input = "5,11,13,17,19";  
var outList = Regex.Split(input,  
@"[,\\s]"); foreach (var item in  
    outList) {  
    Console.WriteLine(item); }
```

Expected result: 5 11 13 17 19

Actual result: 5 ,11,13,17,19 A:

If you want to split string by commas and whitespaces, you
