Latest News For The - twitter To the uninformed, it may seem like the average, everyday activity of posting on Twitter in an attempt to get more views and increase the reach of your article is pointless. However, this is not always the case, and in some instances, using Twitter as a means to get more exposure for your work can be the best option available to you. It's been a busy month here at Onvue. We've been heads down working on new features and fixing bugs to make your experience even better. But, we've also been working closely with our PR and marketing team to ensure we are putting together a world class marketing and PR strategy to create awareness and excitement for Onvue's platform. Here are some of the activities we've been up to. The Onvue team had a great time this past weekend at the Indiana State Fair. We were impressed with the energy and passion the state of Indiana showed while promoting their farm products to the world. Onvue was able to educate the team and the state fair visitors on some of the newest innovations in the IoT and IoT-enabled farming, and provided a large screen that allowed visitors to experience the connected on-farm elements of our system. Today, we're happy to announce that we have been acquired by Onvue! Onvue is a big name in the IoT industry, and has experience in the agricultural domain. Onvue's team will continue to build out our platform, and allow us to further expand the reach of Onvue's platform
