What's New In?

Come a long way from its origin as an audio editor, SoundForge Audio Studio is now a complete SoundForge Audio Workstation with effects and a new array of sonic tools. Add high-quality audio recordings and loops to your music and video projects with ease.

Create custom EQs, compressors, noise gates, equalizers, and more to fine-tune your music to the way you hear it. Multitrack editing allows you to record multiple audio tracks at once, while MIDI recording lets you work with your MIDI sounds. Even manage and edit MIDI data from your DAW.

SoundForge Audio Studio is now a complete sound editing solution. Bring your music and video projects to life with easy and intuitive tools to add professional audio and video effects to your music and video projects.

SoundForge Audio Studio is composed of a new, easy-to-use interface for editing multitrack audio and video, a new addition to the C5 audio engine which now supports an incredible 8K audio and video editing, and an easy to use tool for adding professional grade audio effects to your music and video

projects. SoundForge Audio Studio is a professional audio editing solution. It's a breeze to use, and comes loaded with impressive features to make your music and video projects come to life. FEATURES

Editing Multitrack Audio & Video

SoundForge Audio Studio makes it easy to add professional audio and video effects to your music and video projects. A comprehensive, intuitive audio interface makes it easy to manipulate and mix audio recordings and video loops. Drag audio tracks from your folders, CD, or iTunes onto your audio and video tracks to start your project. Sound Forge Audio Studio offers the best of both worlds: a great, intuitive audio editor and a powerful new audio engine, C5. C5 provides multitrack audio recording and editing to compete with the very best DAWs.

Voice Activated Search Tool Thanks to the power of C5, the Sound Forge Audio Studio voice activated search tool uses a combination of an advanced speech recognition technology, advanced DSP and a custom database to make it easy to search through your music, videos and photo libraries. The results are displayed in a simple form for you to review. You can easily drag and drop the information you want to save into the right spot in your library. With C5 & Spatialized Stereo SoundForge Audio Studio can handle up to 8K audio and video with an uncompressed audio track. The DSP performance of C5 is equivalent to that of a very high end professional DAW. C5 supports the industry standard formats for audio and video, and provides a comprehensive collection of

professional effects. C5 & Spatialized Stereo provides outstanding results, and allows you to further emphasize and highlight the importance of a recording, song, or video with perfect sound reproduction and stereo imaging. MIDI Track Editing SoundForge Audio Studio lets you manage and

System Requirements:
