UPDATE: On August 11 2011, google updated their search results, which is now showing the original Webmaster Guidelines in Google Search Console, a place where a business can manage their accounts and analyzes the performance of there websites and webpages. Gk Gupta Dbms Pdf [PORTABLE] Free 68 On September 14, 2011, Google began to officially index pages more frequently, which is the new method. Gk Gupta Dbms Pdf [PORTABLE] Free 68 Google started to update the indexing information about the pages every 3 hours, as an average, and they are now totally indexing 100% of the web pages. On September 15, 2011, Google updated the webmaster guideline to reflect the new changes. Gk Gupta Dbms Pdf Free 68 On October 19, 2011 Google revealed that they started to use "Google Updates Indexing" to speed up the pages in their database. This is an average of every 24 hours, and they are indexing pages at around the same pace, although they didn't want to give the exact time but once they started to reduce the pace of indexing they would let us know when they're done with their changes. Gk Gupta Dbms Pdf Free 68 Google started to show mobile-friendly websites on their homepage, and they are now pre-selecting the mobile-friendly websites for mobile searchers and they are also displaying the "Recommend your site for mobile search" link on top to all desktop searchers. They had made this announcement on October 19, 2011, their eighth birthday. Google is now pre-selecting websites for mobile search, and they are now displaying the "Recommend your site for mobile search" link on top to all desktop searchers. Gk Gupta Dbms Pdf Free 68 Google has reduced the auto-complete feature for mobile and desktop searches on October 23, 2011. This is the last step to finally take away the auto-complete features from mobile and desktop searches, but if a website is not mobile-friendly, or they have other issues with mobile searchers, they will let you know of it. Gk Gupta Dbms Pdf Free 68 On November 2, 2011, Google implemented the "Universal search" feature on mobile. This means that Google is no longer showing you the desktop results, but they are showing you mobile-friendly results only. This feature is being used by most of 570a42141b
