Extreme Landings Pro PC Game Description Doozy Games' Extreme Landings is a new, retro styled game with a unique take on the flying game genre. Set in a crashed airplane located in the middle of nowhere, you have to land your little plane, and deal with the competition! Are you a real game wiz? Are you a wing to the badlands, ready to take off, to fly, and to crash? Then you got the right stuff. And if you ain't that good, you've got to get even better! Extreme Landings is a new take on the flying game genre. Easy, classic controls, in a fast-paced, hardcore game. There is no time to lose, or for your reflexes to become rusty. Extreme Landings is a real time simulator in which you will have to deal with the following: *Landings! *Landing under worst weather conditions: snow, ice, hurricane, sandstorm, and more. *Landing with a bad engine: you will have to use an alternate or in extreme cases the manual approach to land. *Landing after a malfunction: something is wrong with your plane, will you be able to land safely? *Landing on the runway and quickly picking off the runway: these are very critical situations that lead to the plane crashing in the airstream. *Scratching the runway: this is when you lose so much speed that you will not be able to control the plane and you will crash. *Landing on a runway with a thousand of other planes landing and taking off: will your plane touch down in the middle of the runway and hurt someone? *Landing at the extreme edge of the runway, in front of your friends. *Landing in the middle of huge crowds: did you know you can land on the crowd, completely bypassing the lines. The crowd can be divided by size, can have things in it and looks like it the extreme crowd can be even more extreme
