Roblox is a free online virtual world developed by the company Roblox Corporation. The platform is a video game creation platform that allows players to program games using Lua and, optionally, HTML5, CSS, and JavaScript. Created by David Baszucki and Erik Cassel in 2004, Roblox allows users to create multiplayer experiences and play other users' creations in a first-person or third-person view. The game-creation platform supports third-party modification tools such as the Unity game engine and Google's Web Toolkit (GWT). Roblox was released in December 2006. The platform received a major update in February 2016. Roblox was originally a desktop application with a web-based client that was downloaded by the player; as of April 2020, most Roblox games are playable on mobile devices. The client was replaced with a browser-based application in October 2014, although the client-based application remains available. Roblox Online Offers a Virtual Playground for Children Children have been using Roblox since Roblox was first released. According to a 2016 survey of the company's users, 45 percent of Roblox users under the age of 13 stated that they were using Roblox for schoolwork. Another 31 percent stated that they used Roblox to learn programming and computer science. As of May 2012, Roblox's website and Roblox help center stated that "Roblox is designed for children, but not just for kids – adults use Roblox too." Roblox Corporation announced a partnership with Dr. Seuss Enterprises to produce virtual versions of classic Dr. Seuss books for the platform in 2016. These virtual books included The Cat in the Hat, Who Stole the Cookie?, and Green Eggs and Ham. These books are designed to appeal to children, by introducing characters that have been used in other Dr. Seuss books. The Roblox Corporation website states that the platform is intended for everyone, with exceptions for underage users. The Roblox help center includes information on parental controls to allow parents to monitor their children's activities on the platform. Roblox users have to be 13 or older to create a Roblox account, though minors can use a parent or guardian account with parental controls enabled. Roblox did not originally have an age requirement for using the platform, but a single child has created a town that was accidentally accepted into Roblox in 2007. Roblox reset the accepted
